GIST and the Gwangju Buk-gu Office jointly hosts 'Discovering Science' classes

- GIST (President Kiseon Kim) held a 'Discovering Science' class at Duam Elementary School in Buk-gu on June 20, 2019.
- As part of the "2019 Science Program for Citizens," the class is co-hosted by GIST and the Gwangju Buk-gu Office and offers learning opportunities to local youths who dream of becoming future scientists by visiting their schools.
 - GIST Professor Jungwon Yoon of the School of Integrated Technology gave a lecture on 'The Future of Medical Robot Technology' to 45 students at Duam Elementary School in Gwangju.
- Dean of International and Public Affairs Sung-Gyoo Park said, "By utilizing GIST's excellent science education infrastructure, we will strive to enhance the status of local residents by fostering local scientific talent and spreading scientific culture."
- For the second half of the year, GIST and the Gwangju Buk-gu Office will jointly host a 'Discovering Science' class for elementary students

on "The Two Faces of Chemistry: Destruction and Prosperity" that will be given by Professor Jun-Ho Choi of the Department of Chemistry.
