### Call for Applications

We greatly appreciate the relationship between two universities over a scholarly and/or student exchange program. Enclosed is *the Application Guideline and Forms for Women-Tenure-Track Faculty Staff Positions (WTT Staff)* at Okayama University. The University is currently soliciting applications for multiple tenure-track positions at the rank of Assistant Professor that start in April, 2011. The special tenure track that is exclusively for women, "Women Tenure Track", was established in 2009 in the institutional efforts to increase the number of women professors in our university. In April, 2010, Okayama University appointed four assistant professors, who are now energetically working for their own research and teaching students.

The WTT staffs will be working in the following departments:

- (1) Department of Biofunctional Chemistry, Division of Bioscience, Graduate School of Natural Science and Technology
- (2) Department of Plant Functions and Regulation, Division of Bioscience, Graduate School of Natural Science and Technology
- (3) Department of Animal Science, Division of Bioscience, Graduate School of Natural Science and Technology
- (4) Department of Environmental Ecology, Division of Biological and Human Environment, Graduate School of Environmental Science
- (5) Medical Technology, Health Sciences, Graduate School of Health Sciences

Detailed information is found in *the Guideline and Forms*, which is also available on the web page of Okayama University:

<http://www.okayama-u.ac.jp/user/jinji/bosyu/kyoiku/kyoiku.html>.

We are sending this letter to colleges and universities that we have a scholarly and/or student exchange program with. We would appreciate it if you make this information available to interested individuals.

Sincerely,

A handwritten signature in black ink that reads "Koji Tanaka".

Koji Tanaka  
The Chair,  
The Personnel Committee for WTT Staffs  
Vice-President,
